On a more full size keyboard for the iMac for example both a 'DELETE' key and a 'BACKSPACE' key is provided by not on the laptops.. So I think you will have to get used to clicking or using your arrow keys to the section you want to delete from and use the Backspace key to delete instead.. Download AppDelete 4 3 4 for Mac from FileHorse 100% Safe and Secure ✓ Delete your unwanted apps for Mac and eliminate associated.
